

A building collapsed due to inadequate foundation ; a refinery exploded due to sub-standard materials used or poor workmanship ; a petrochemical plants leaked killing thousands of people due to in adequate in-service inspection.

DO YOU REALIZE THE IMPORTANCE OF COMPREHENSIVE PREVENTIVE APPROACH TO THE PROBLEM OF SAFETY AND QUALITY ?

Safety and Quality can only be achieved by a sustained and specialized action carried out at every stage of construction and maintenance activity.

*“Saving a few pesos now
and losing Millions
in the future”*

INDUSTRIAL INSPECTION (INTERNATIONAL), INC.

A license **Philippine Engineering Service Contractor** which has an extensive experience in Multi-Engineering Inspection and Testing Services.

EYEYE services are available at every stage of the projects that range from planning, during the actual construction, commissioning , operation and maintenance in diverse sector of industry such as **Thermal and Geothermal Plants , Petroleum Refinery, Industrial & Manufacturing Plants, Geothermal Plants, Cement Plants and Infrastructure**

THIRD PARTY INSPECTION

is a function that requires a good neutral outside party possessing a high level of technical competence in various engineering discipline such as **Civil, Structural, Mechanical, Electrical, Instrumentation, etc.**

MAINTENANCE / SHUTDOWN INSPECTION

PRESSURE VESSELS AND PIPELINES INSPECTION

WELDERS QUALIFICATION TEST

NON-DESTRUCTIVE EXAMINATION

To detect the presence of damage mechanisms, characterize findings and size them without causing any damage to the equipment itself

Radiographic Test

Ultrasonic Test

Magnetic Particle Test

Dye-Penetrant Test

POST-WELD HEAT TREATMENT

IS APPLIED ON THE WELD AREAS AFTER WELDING TO REMOVE THE RESIDUAL STRESSES PRESENT IN THE WELDED PART FORMED DURING THE WELDING PROCESS. IT PREVENTS TO CAUSE BRITTLE FRACTURE IN A METAL. ELIMINATES THE EFFECTS OF THERMAL STRESS BY HEATING, SOAKING AND COOLING THE WELD AREA IN A CONTROLLED MANNER TO TEMPERATURES BELOW THE FIRST TRANSFORMATION POINT, GIVING THE MACRO STRUCTURE SUFFICIENT TIME TO RE-ADJUST TO ITS ORIGINAL STATE

MATERIALS TESTING

Equipped with calibrated testing equipments manned by well trained staff, EYEE is capable of handling almost all types of materials testing guided by the latest published codes and standards

ON-SITE QUALITY TESTING

EYEE had made available various on-site quality laboratory and control test standard like field density test on soils, rebound hammer test on concrete, core drilling to determine strength of concrete

CBR

Digital Direct/
Residual Shear

Automatic Control
Data-logging Unit

Field Density Test

Rebound Hammer Test

Concrete Coring

PROJECT MANAGEMENT

EYEE's expertise covers not only Non-Destructive Examination Services but also **Project Management Services** responsible for the control of construction schedules, quality of materials as well as equipment and safety.

GEOTECHNICAL INVESTIGATION

Also called foundation investigation or sub-surface investigation is to investigate the soil and geologic conditions of a property by boring, sampling and testing the soil strata to establish its compressibility, strength and other characteristics likely to provide recommendations and design criteria for construction

On-shore

Off-shore

Topographic Survey

Geared to respond to the growing needs of the construction industry, EYEE diversified into related services in partnership with our accredited clients

Georesistivity

Hydrographic Survey

MISSION STATEMENT

To maintain its **LEADERSHIP** and **HIGH LEVEL OF TECHNICAL COMPETENCY** in the field of **ENGINEERING** and **RELATED SERVICES** through **ADEQUATE MODERN FACILITIES**, **FOCUSLY TRAINED MANAGEMENT** with highly **SKILLED ENGINEERS AND TECHNICIANS** bonded together to **ATTAIN SPEEDY, RELIABLE AND QUALITY WORK RESULTS** based on **INTERNATIONAL and LOCALLY ACCEPTED CODES and STANDARDS** and **MORAL-BASED COMMITMENT** to safeguard and satisfy the requirements and interest of the **CLIENTS** and **ENVIRONMENT**

VISION STATEMENT

VISION

Number 1
Boundary Less
Quality Second to None

VALUES

Self Confidence
Simplicity
Speed

PROCESSES

Work-Out
Stretch Out

So, why settle for less
when you can get **MORE !!!**

EYEEYE Services are available 24 hours a day

You can contact the following :

MAKATI OFFICE

2/F MJL Bldg., 1175 Chino Roces Avenue, Makati City

Tel. Nos. 890-7307 / 8907318 / 8907330

Fax. No. 8907321 / 8907307

Email : sales@industrial-inspection-international.com

Website : <http://www.industrial-inspection-international.com>

BATANGAS FIELD OFFICE

VGR Compound, Brgy. Dumantay, Batangas City

Tel. No. (043) 783-7902

TeleFax. No. (043) 783-0318

Email : industrialinspectionbatangas@yahoo.com

CEBU FIELD OFFICE

30-D Gil Tutud St., Mabolo, Cebu City

Tel. No. (032) 232-9205

TeleFax. No. (032) 231-7234

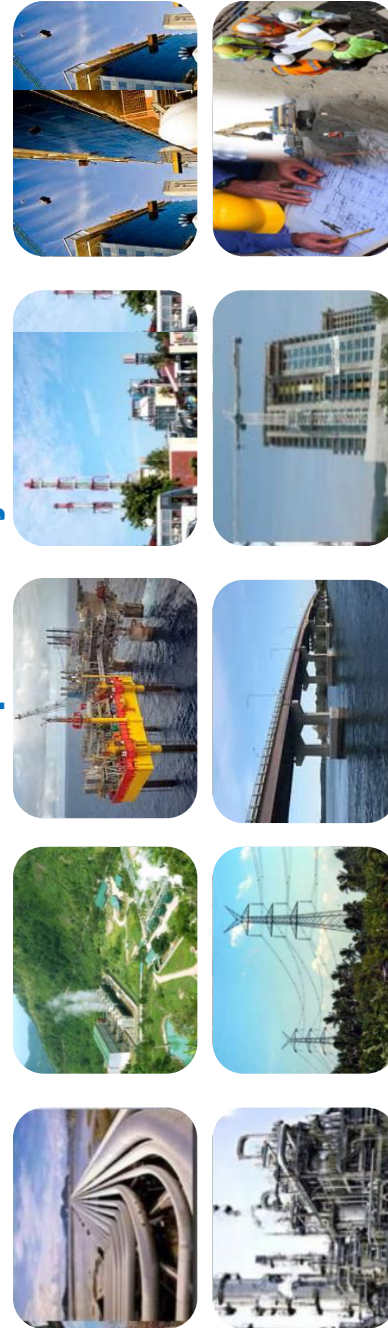

Email : eyeyecho@yahoo.com

Industrial Inspection (International), Inc.

Contractor's License No. 3774 (General Engineering)

Start of our journey to complete our Mission of our Second HALF CENTURY
50 Years of Prompt & Quality Services

For being part of our First **50 years** of **SUCCESS**
then now and in the **FUTURE !**

For the next **fifty (50) years** with **ISO Accreditation** and our years of Experience
Behind us we **RISE** to always **DO BETTER** than before,

REACH FURTHER TOGETHER with EXCELLENCE

for the **Empowerment** of our **Clients** & **Industries** where we **Belong**
